

Proprioceptor Neuromuscular Facilitation

By - Sedative Physio

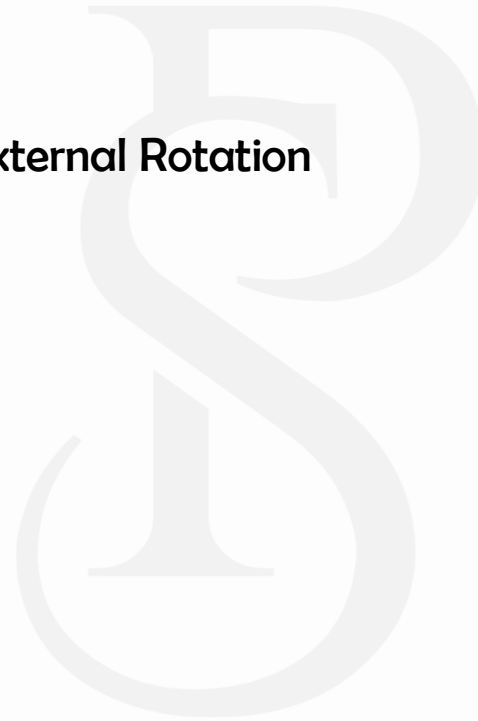

Upper Extremity Patterns

Upper Extremity Diagonal Patterns

- D1 Flexion
 - Starting Position
 - Shoulder – Extension, Abduction, Internal Rotation
 - Elbow – Extension
 - Forearm – Pronation
 - Wrist & Finger - Extension
 - Hand Placement
 - Index & Middle finger of your Right Hand in the patient's palm.
 - Left hand on Cubital Fossa
 - Ask the patient to squeeze the fingers on the palm

Upper Extremity Diagonal Patterns

- D1 Flexion
 - Ending Position
 - Shoulder – Flexion, Adduction, External Rotation
 - Elbow – Partial flexion
 - Forearm – Supination
 - Wrist & Finger - Flexion

Upper Extremity Diagonal Patterns

- D1 Extension
 - Starting Position
 - Shoulder – Flexion, Adduction, External Rotation
 - Elbow – Partial flexion
 - Forearm – Supination
 - Wrist & Finger – Flexion
 - Hand Placement
 - Hold dorsal surface of patient's hand and fingers with your Right Hand
 - Left hand on the extensor surface just proximal to elbow
 - Ask the patient to open up the fingers

Upper Extremity Diagonal Patterns

- D1 Extension
 - Starting Position
 - Shoulder – Extension, Abduction, Internal Rotation
 - Elbow – Extension
 - Forearm – Pronation
 - Wrist & Finger - Extension

Upper Extremity Diagonal Patterns

- D2 Flexion
 - Starting Position
 - Shoulder – Extension, Adduction, Internal Rotation
 - Elbow – Extension
 - Forearm – Pronation (Should lie across the umbilicus)
 - Wrist & Finger - Extension
 - Hand Placement
 - Grasp Dorsal surface of palm with your left hand
 - Dorsal surface of forearm near elbow with right hand
 - Ask the patient to turn up the hand towards the face

Upper Extremity Diagonal Patterns

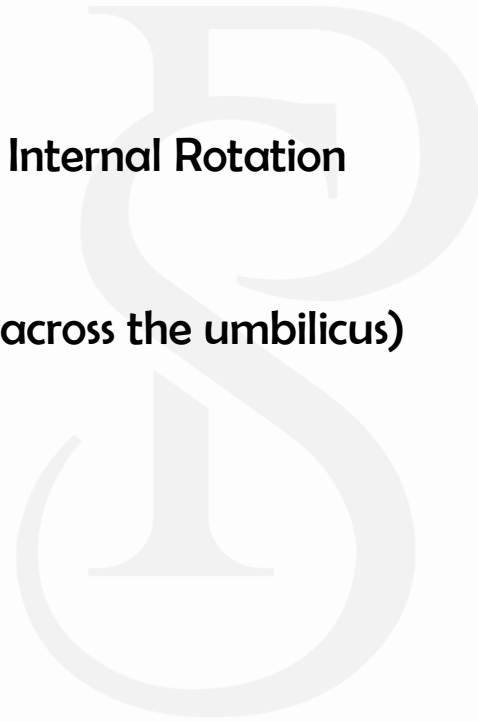

- D2 Flexion
 - Ending Position
 - Shoulder – Flexion, Adduction, External Rotation
 - Elbow – Extension
 - Forearm – Supination
 - Wrist & Finger – Flexion (Thumb should point the floor)

Upper Extremity Diagonal Patterns

- D2 Extension
 - Starting Position
 - Shoulder – Flexion, Adduction, External Rotation
 - Elbow – Extension
 - Forearm – Supination
 - Wrist & Finger – Flexion (Thumb should point the floor)
 - Hand Placement
 - Index & Middle finger of Right hand into patient's palm.
 - Left hand on distal humerus

Upper Extremity Diagonal Patterns

- D2 Flexion
 - Ending Position
 - Shoulder – Extension, Adduction, Internal Rotation
 - Elbow – Extension
 - Forearm – Pronation (Should lie across the umbilicus)
 - Wrist & Finger - Extension

Lower Extremity Patterns

Lower Extremity Diagonal Patterns

- D1 Flexion
 - Starting Position
 - Hip – Extension, Abduction, Internal Rotation
 - Knee – Extension
 - Ankle – Plantar Flexion, Eversion
 - Toe - Flexion
 - Hand Placement
 - Place one hand on the dorsal and medial surface of foot and toes
 - Place other hand on the anteromedial aspect of the thigh proximal to knee

Lower Extremity Diagonal Patterns

- D1 Flexion
 - Ending Position
 - Hip – Flexion, Adduction, Internal Rotation
 - Knee – Flexion
 - Ankle – Ankle Flexion & Inversion
 - Toe – Extension
 - Hip should be adducted across the midline.

Lower Extremity Diagonal Patterns

- D1 Flexion

Lower Extremity Diagonal Patterns

- D1 Extension
 - Starting Position
 - Hip – Flexion, Adduction, Internal Rotation
 - Knee – Flexion
 - Ankle – Ankle Flexion & Inversion
 - Toe – Extension
 - Hand Placement
 - Place one hand on the plantar and lateral surface of foot at the base of toes
 - Place other hand at the posterior aspect of knee at the popliteal fossa

Lower Extremity Diagonal Patterns

- D1 Extension
 - Ending Position
 - Hip – Extension, Abduction, Internal Rotation
 - Knee – Extension
 - Ankle – Plantar Flexion, Eversion
 - Toe - Flexion

Lower Extremity Diagonal Patterns

- D1 Extension

Lower Extremity Diagonal Patterns

- D2 Flexion

- Starting Position

- Hip – Extension, Adduction, Internal Rotation
 - Knee – Extension
 - Ankle – Plantar Flexion, Inversion
 - Toe - Flexion

- Hand Placement

- Place one hand (R) on the dorsal and lateral surface of foot
 - Place other hand (L) on the anterolateral aspect of the thigh proximal to knee
 - Fingers of your Left hand should point distally

Lower Extremity Diagonal Patterns

- D2 Flexion
 - Ending Position
 - Hip – flexion, Abduction, Internal Rotation
 - Knee – Flexion
 - Ankle – Dorsi Flexion, Eversion
 - Toe - Extension

Lower Extremity Diagonal Patterns

- D2 Flexion

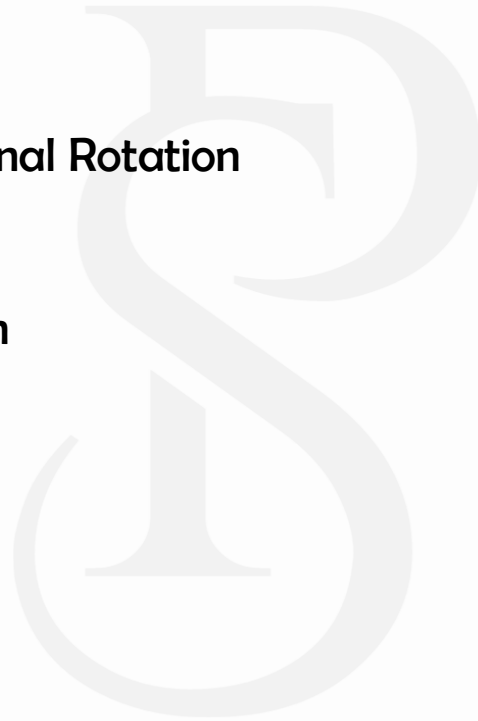

Lower Extremity Diagonal Patterns

- D2 Extension
 - Starting Position
 - Hip – Flexion, Abduction, Internal Rotation
 - Knee – Flexion
 - Ankle – Dorsi Flexion, Eversion
 - Toe - Extension
 - Hand Placement
 - Place one hand (R) on the dorsal and lateral surface of foot
 - Place other hand (L) on the anterolateral aspect of the thigh proximal to knee
 - Fingers of your Left hand should point distally

Lower Extremity Diagonal Patterns

- D2 Extension
 - Ending Position
 - Hip – Extension, Adduction, Internal Rotation
 - Knee – Extension
 - Ankle – Plantar Flexion, Inversion
 - Toe - Flexion

Lower Extremity Diagonal Patterns

- D2 Extension
